Daily Sales Workflow

1. Ctrl+L → set Date, Cash/Credit, Local/Inter-state
2. Select party → scan barcode or type product
3. Enter through grid: Product → HSN → Tax → Rate → Qty → Disc
4. Ctrl+S Save → Ctrl+P Print

Grid Navigation Tips

- Enter = forward field | Escape = backward field
- Single-click cell = select all text for overwrite
- Down Arrow in Disc column = convert to % of gross
- After last column, new row starts automatically

Admin Reminders

- Backup before year-end closing
- Max 3 companies per installation
- Admin role = full access; set operator permissions carefully
- Previous FY opens read-only — no new entries allowed
